

## Eve & Cain

When it all went down, when the stone fell hard  
Did you somehow know it was meant to be from the start?  
I tried to raise you right, tried to raise you well  
But one's gone up to heaven, the other's going to hell

### Chorus

I don't know how I (you, we) could do it  
It all gets ruined in a day  
I don't know how I (you, we) could do it  
It just turned out this way

When it all went down, eaten to the core  
Did it make me satisfied or did I want a little more?  
The blood in your ears seems to make a guilty song  
And sins of the mother can also get passed along

### Bridge

The mess you make you have to clean up on your own  
In the dirt and sweat of the day  
Wipe juice from your mouth, wash off the bloody stone  
Hope what you're about to do just might atone  
For what you've thrown away; burn all your sins away.

When it all went down, pretty naturally,  
There was some commotion but I found I could do the deed.  
So he stumbled off, wasn't seen again  
Maybe when I have more sons I can make them better men.
