

## Hold Your Hand

I want to hold your hand  
Want to keep it with me  
Want to hold your hand

I want to keep you so close  
want to keep you with me  
Want to hold your hand

I know you want it all, too  
But you won't say you do.

I kiss you in the dark  
Keep you close to my heart  
As I hold your hand

I lightly touch your cheek  
You will stay with me  
As I hold your hand

I know you want all this, too  
Though you won't say you do

### Bridge

My heart is caged and you hold the key  
My love is locked, but you set it free  
My faith is blind and you let me see  
I am so lost, find me  
I am in pain, I am in pain, you can heal me

I know your secret thoughts  
Though you keep them all locked  
I will hold your hand

I know your love beats through  
Pulsing in the gloom  
Reach for my hand

All my desire is for you  
Let your love see me through
